

Ref. No: 1037  
Date: 26/06/24  
Subject: ABI Hospital Beds

## REQUEST

I am currently researching the availability of beds for acquired brain injuries (ABI) and other neurological conditions such as neuropsychiatry disorders in different settings across England. As such, I would like to request a breakdown of the different types of beds available for ABI patients (split by level from level 1 – level 4) as well as neuropsychiatry patients across the hospitals in your Trust.

Could you please provide and specify the number of beds for each sub-category, split by the following information:

- a. Name of each hospital in your Trust
- b. Gender split (Male / Female / Mix)

## RESPONSE

St Helens and Knowsley Teaching Hospitals NHS Trust and Southport and Ormskirk Hospital NHS Trust became a single legal entity known as Mersey and West Lancashire Teaching Hospitals NHS Trust on 1<sup>st</sup> July 2023, as such parts of the response may be provided in two sections relating to the hospital sites of each of the legacy organisations.

The Trust do not provide rehabilitation for brain injuries or Neuropsychiatry disorders. Mersey care are commissioned to provide a brain injury service.
