

Ref. No: 1582  
Date: 27/02/25  
Subject: Clinical Data Repository

## REQUEST

1. Does the trust have a Clinical Data Repository (CDR)
2. If yes, what is the name of the system or solution in use?
3. If not, does the trust have plans to procure a CDR in the next 5 years?
4. Is the trust using OpenEHR?
5. If not, does the trust have an OpenEHR strategy?
6. Is the trust's EPR interoperable with all the trust's other patient data software and data records?

## RESPONSE

**Does the trust have a Clinical Data Repository (CDR) – No**  
Recently merged organisation with 2 separate EPR's feeding into separate EDMS systems

**If yes, what is the name of the system or solution in use? N/A**

**If not, does the trust have plans to procure a CDR in the next 5 years? Procurement due to commence in April**

**Is the trust using OpenEHR? - No**

**If not, does the trust have an OpenEHR strategy? – Digital Strategy includes a single EPR**

**Is the trust's EPR interoperable with all the trust's other patient data software and data records?** No, there is an amount of integration, but this is not system/Trust wide. The new EPR will in time support an EPR with full interoperability.
